Dear Rick:

We want to thank you once again for the phenomenal job you did in assisting us to recuperate payment from our insurance company from the devastating losses to our property. Your persistent efforts and professionalism were a major contributing factor in recuperating monies that otherwise we not going to get paid for without your guidance.

In a time when competitors in your field made us feel like we were living in a lawless State where everybody was only out to take advantage of Hurricane victims we were fortunate enough to find your firm, which we highly recommend in time of need.

The best form of advertisement is a satisfied clients, as a Realtor myself I believe in strong relationships that are built through integrity and effort. My husband and myself are very appreciative for the excellent results in a timely manor and attention to detail you have given us. Please feel free to share our number with any potential client you may have in the future as a reference to your impeccable accomplishment on our claim.

Best regards,

Sara Behar
